TECALEMIT MasterDrainer 80

Professional gravity and suction feed oil collection and extraction unit with a height adjustable drain pan and air discharge hose.

The new TECALEMIT MasterDrainer oil collector sets new standards when it comes to weight, user-friendliness and handling.

The comprehensive set of accessories and generously-sized, variable-height adjustable drain pan make this product an indispensable tool for your workplace.

Safety closure system protects against incorrect operation during drainage.

Features: 80 l reservoir with heavy-duty wheels and castors, drain pan with drip sieve, 1.8 m drainage/extraction hose with hand grip and adapter, integrated storage trays & fill level indicator.
